New

Software Developer Intern, Geotab Vitality (Winter/January 2027, 4 Months)

Apply

📍 Oakville, Ontario - Canada; Toronto, Ontario - Canada; Waterloo, Ontario - Canada

Who we are:

Geotab ® is a global leader in IoT and connected transportation and certified “Great Place to Work™.” We are a company of diverse and talented individuals who work together to help businesses grow and succeed, and increase the safety and sustainability of our communities.

Geotab is advancing security, connecting commercial vehicles to the internet and providing web-based analytics to help customers better manage their fleets. Geotab’s open platform and Geotab Marketplace ®, offering hundreds of third-party solution options, allows both small and large businesses to automate operations by integrating vehicle data with their other data assets. Processing billions of data points a day, Geotab leverages data analytics and machine learning to improve productivity, optimize fleets through the reduction of fuel consumption, enhance driver safety and achieve strong compliance to regulatory changes.

Our team is growing and we’re looking for people who follow their passion, think differently and want to make an impact. Ours is a fast paced, ever changing environment. Geotabbers accept that challenge and are willing to take on new tasks and activities - ones that may not always be described in the initial job description. Join us for a fulfilling career with opportunities to innovate, great benefits, and our fun and inclusive work culture. Reach your full potential with Geotab. To see what it’s like to be a Geotabber, check out our [blog](#) and follow us @InsideGeotab on [Instagram](#).

Who you are:

We are seeking high-impact talent to join our Systems team for a 4-month co-op term. If you are passionate about software development, artificial intelligence, and cloud technology, and you thrive in collaborative, high-growth environments, we want to hear from you!

What you'll do:

As a Software Developer Intern on the Systems team, you will work across the full stack to design, build, and optimize the core platform powering Vitality's driver-behavior features. You will write modern TypeScript/React for user interfaces, build robust backend services using C#/.NET and SQL, and leverage BigQuery and GCP to process complex telemetry data. You will collaborate closely with product managers and engineers across the team, gaining deep exposure to modern full-stack development workflows.

The opportunity:

- 4 month work-term beginning January 2027.
- Full-time, paid internship: Monday - Friday, 37.5hrs/week.
- Your first week at Geotab begins with 'GEO Launch' - a one-week Employee Orientation. Click [here](#) to learn more!
- Learn more about the Geotab Campus Program [here](#).
- This posting is for an existing vacancy.

How you'll make an impact:

- Participate in team meetings, planning, and design discussions.
- Use Git (Bitbucket) for source control and follow our code review process.
- Develop UI components using TypeScript, JavaScript, HTML, and CSS (React).
- Develop backend services and APIs using C# on .NET.
- Write automated unit tests as part of a test-driven workflow.
- Create and maintain database access code using SQL.
- Use BigQuery/GCP to help analyze and understand product and telemetry data.
- Debug and troubleshoot issues across the stack, from UI to backend to data.
- Write clear technical documentation for the features you build.
- Leverage modern AI development tools (e.g., Claude, GitHub Copilot) to accelerate coding, testing, debugging, and technical documentation workflows.

What you'll bring to the role:

- Pursuing a Degree/Diploma in Computer Science, Math, Software Engineering or a related field.

- Experience with **React, Angular, JavaScript/TypeScript, HTML, CSS** is an asset.
- Knowledge of backend systems such as **C# .NET Core / .NET 7+**
- Comfort using AI-assisted development tools (e.g. Claude, GitHub Copilot, ChatGPT) in your workflow is an asset.
- Familiarity with cloud platforms (GCP, AWS, or Azure).
- Enthusiasm for table tennis, foosball, or team social activities.
- Strong communication, organization, and time management skills, as well as a willingness to learn and strong work ethic.

If you got this far, we hope you're feeling excited about this role! Even if you don't feel you meet every single requirement, we still encourage you to apply.

Please note: Geotab does not accept agency resumes and is not responsible for any fees related to unsolicited resumes. Please do not forward resumes to Geotab employees.

How we work:

At Geotab, we have adopted a flexible hybrid working model in that we have systems, functions, programs and policies in place to support both in-person and virtual work. However, you are welcomed and encouraged to come into our beautiful, safe, clean offices as often as you like. When working from home, you are required to have a reliable internet connection with at least 50mb DL/10mb UL. Virtual work is supported with cloud-based applications, collaboration tools and asynchronous working. The health and safety of employees are a top priority. We encourage work-life balance and keep the Geotab culture going strong with online social events, chat rooms and gatherings. Join us and help reshape the future of technology!

We believe that ensuring diversity is fundamental to our future growth and progress and is an integral part of our business. We believe that success happens where new ideas can flourish – in an environment that is rich in diversity and a place where people from various backgrounds can work together. Geotab encourages applications from all qualified individuals. We are committed to accommodating people with disabilities during the recruitment and assessment processes and when people are hired. We will ensure the accessibility needs of employees with disabilities are taken into account as part of performance management, career development, training and redeployment processes. If you require accommodation at any stage of the application process or want more information about our diversity and inclusion as well as accommodation policies and practices, please contact us at careers@geotab.com. By submitting a job application to Geotab Inc. or its affiliates and subsidiaries (collectively, "Geotab"), you acknowledge Geotab's collection, use and disclosure of your personal data in accordance with our [Privacy Policy](#). Click [here](#) to read our Privacy Notice.

This role offers an hourly pay range which is anticipated to be the range listed below. The actual pay for this position depends on a variety of factors such as but not limited to student's academic program, relevant experience, and location. Geotab is committed to fair and equitable compensation and will share final details as part of the offer process. All offers of employment are contingent upon proof of eligibility to work for the duration of the internship and the individual's ability to pass a background check.

Hourly Rate

\$33 - \$39 CAD

Geotab's Voluntary Self-Identification Survey

Geotab is committed to fair and equitable treatment for all, and fostering a culture that embraces diversity and inclusion throughout the hiring process and beyond. At Geotab, our unique company culture is built upon the value of “always do the right thing” which is embraced by employees around the world. As a global organization, we continuously seek ways in which we can support both our staff and our communities through programs and partnerships focused on empowering diversity and prioritizing inclusion.

We invite you to complete this optional survey to help us evaluate our diversity and inclusion efforts. Submission of the information on this form is strictly voluntary. Opting not to participate will not impact your job application in any way. Information obtained will not be associated with your name or job application in any identifiable manner. This information will be kept secure and confidential and will be used solely to evaluate our diversity and inclusion efforts. The information collected in this survey is only available to HR staff and Geotab data scientists to view in aggregated data format and not on an individual basis. Your answer will be maintained confidential and not be seen by selecting officials or anyone else involved in making hiring decisions.

Note to USA Applicants: This is a separate survey from the EEO-1 Voluntary Self Identification Form used in the United States for compliance purposes. We feel that the options found in the mandated survey do not encompass the rich diversity of our applicants, and as such strive to provide additional responses that reflect the landscape more accurately.

I identify my ethnicity as (select all that apply):

Select...

What gender do you identify as?

Select...

Does the role you are applying for include managing direct reports?
