OMERS

[Apply Now](#)[Save](#)

Choose a workplace that empowers your impact.

Join a global workplace where employees thrive. One that embraces diversity of thought, expertise and experience. A place where you can personalize your employee journey to be — and deliver — your best.

We are a purpose-driven, dynamic and sustainable pension plan. An industry leading global investor with teams in Toronto to London, New York, Singapore, Sydney and other major cities across North America and Europe. We embody the values of our 665,000 members, placing their best interests at the heart of everything we do.

Join us to accelerate your growth & development, prioritize wellness, build connections, and support the communities where we live and work.

Don't just work anywhere — come build tomorrow together with us.

Know someone at OMERS or Oxford Properties? Great! If you're referred, have them submit your name through Workday first. Then, watch for a unique link in your email to apply.

We're looking for a driven and detail-oriented **QA Engineer (Co-op)** to join our growing **Products & Technology team** in Toronto. This team is passionate about delivering high-quality, scalable solutions to serve over 600,000 members.

You will be responsible for:

- Support the development and maintenance of automated test scripts
- Execute test cases and document results in a test management tool
- Assist in identifying manual test cases that are good candidates for automation
- Work collaboratively in an agile team with QA Engineers, Developers, and Product Owners
- Participate in sprint planning, stand-ups, and team discussions
- Help configure and manage test data across testing environments
- Learn and apply Agile testing practices in a real-world setting
- Contribute to test coverage reviews against business requirements and user stories
- Assist with troubleshooting and debugging test failures

- Prior experience with coding in JavaScript or Python is a plus but not mandatory
- Must be enrolled in a co-op program at a recognized post-secondary institution

We believe that time together in the office is important for OMERS and Oxford, the strength of our employees, and the work we do for our pension members. In delivering on our pension promise, keeping us connected to our work and each other, our flexible hybrid work guideline requires teams to come in to the office 2+ days per week.

This posting is for an existing vacancy.

The expected salary range for this position is \$50,700.00 - \$70,200.00 per year, prorated based on the term of the contract.

You may also be eligible to receive an annual Incentive Award pursuant to our Short-term Incentive plan and our Long-Term Incentive plan (if applicable), and to participate in our group benefits and retirement plans – details on these elements of compensation are included within OMERS & Oxford offer letters.

As one of Canada's largest defined benefit pension plans, our people-first culture is at its best when our workforce reflects the communities where we live and work — and the members we proudly serve.

From hire to retire, we are an equal opportunity employer committed to an inclusive, barrier-free recruitment and selection process that extends all the way through your employee experience. This sense of belonging and connection is cultivated up, down and across our global organization thanks to our vast network of Employee Resource Groups with executive leader sponsorship, our Purpose@Work committee and employee recognition programs.
