

Tools and Automation SW Dev Co-op/Intern

Canada (Hybrid)

Position: Tools and Automation SW Dev Co-op/Intern

Number of Position(s): 1

Duration: 4 Months

Date: Winter Term Jan 4th - Apr 30th, 2027

Location: Hybrid in Ottawa

Your responsibilities

As a part of our team, you will:

- Build web applications, dashboards, and scripts to support internal initiatives.
- Design, implement, prototype, and test new code and frameworks.
- Apply and integrate industry-standard technologies such as Kubernetes, Helm, OpenStack, Flask, Django, and Python.
- Contribute within an agile team structure and participate in team syncs to share progress and maintain alignment.
- Enhance and expand functionality in existing frameworks.
- Review system behavior to identify and address performance constraints.
- Explore and assess automation technologies for potential implementation.

Your skills and experience

Education Recommendations: Currently a candidate for a Bachelor's, Master's degree, or Diploma in Engineering,

[Skip to main content.](#)

Computer Science, or a related field with an accredited school in Canada.

Qualifications

Experience with scripting languages (e.g., Bash/Shell, Perl, Python)

- Knowledge of JavaScript and React
- Familiarity with Java, Java APIs, and SQL databases
- Proficiency working in a Linux environment
- Solid grasp of object-oriented design, data structures, and algorithms

It would be beneficial if you also had:

- Understanding of cloud platforms (OpenStack, Kubernetes, Docker, etc.)
- Experience using automation tools (e.g., Ansible)
- Knowledge of microservices and cloud-native architecture

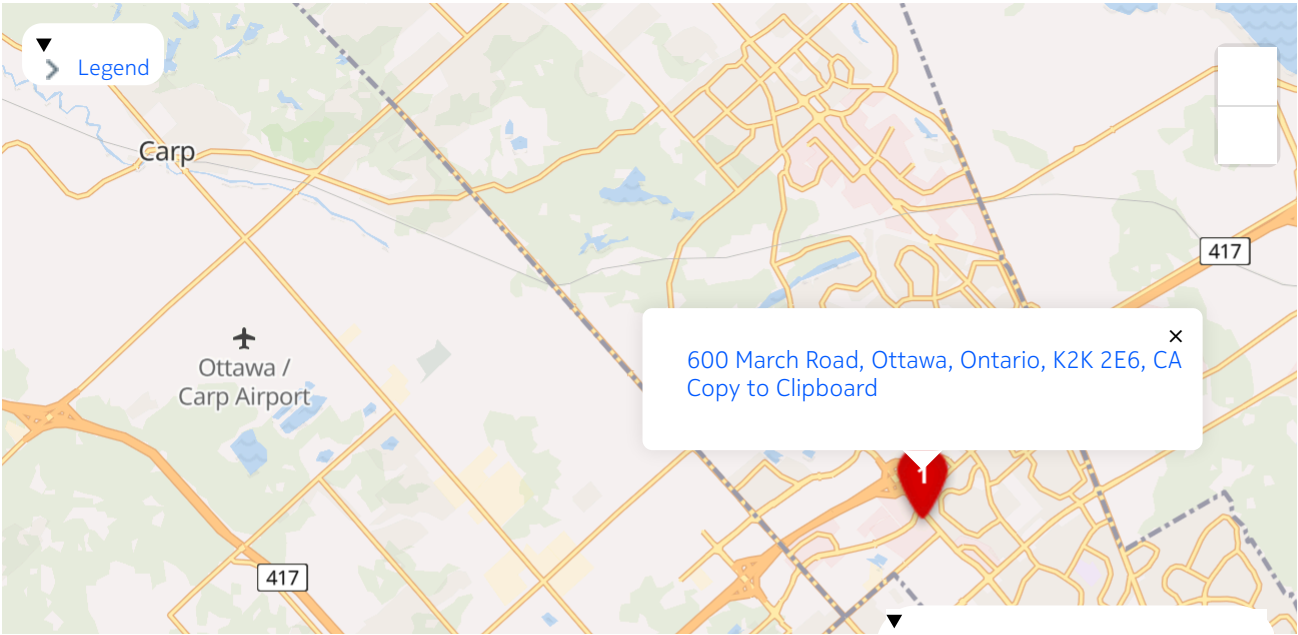

At Nokia, we want every candidate to be able to perform their best. If you need any adjustments or support during the recruitment process, please let us know. All requests are treated confidentially.

AI Statement: Nokia embraces the strategic use of Artificial Intelligence (AI) within our recruiting process to enhance the candidate experience and significantly improve our operational efficiencies. By leveraging AI-powered tools, we aim to create a more responsive and equitable journey for all applicants. Concurrently, we advocate for the intelligent, ethical, and safe use of AI by candidates and applicants when preparing and submitting their applications for our roles. This includes ensuring that any AI-generated content is thoroughly reviewed for accuracy, originality, and relevance, and that its use aligns with principles of transparency and integrity. Our goal is to foster a recruitment environment that benefits from technological advancements while upholding fairness, authenticity, and human oversight.
