IGM Financial Inc. is a leading wealth and asset management company in Canada, managing approximately \$310 billion in assets as of December 31, 2025. It offers financial planning and investment services to over two million Canadians through IG Wealth Management and Mackenzie Investments.

Founded in 1926, IG Wealth Management is a key part of IGM's business model, providing comprehensive wealth management services to Canadian financial advisors and their clients.

With a vision to inspire financial confidence, IG Wealth Management is recognized as one of Manitoba's Top Employers, Canada's Top 100 Employers, and Best Diversity Employers, aiming to innovate the industry and support Canadians in achieving their financial goals.

Join our team to engage in continuous learning and skill development in a supportive environment. Experience the best of both worlds with our hybrid work environment, where you spend three days a week in the office, connecting, collaborating, and enjoying quality time with your amazing colleagues! Our Values: Be better; we strive for improvement in everything we do. Be accountable; we foster clarity and are empowered to act responsibly. Be a team; we are united to drive collective impact to achieve our goals.

Position:

We are currently hiring an intern looking for a winter term position, January to April 2027. Candidates must be enrolled in an undergraduate program and plan to return to school after completing the internship to be eligible to apply.

This is a full-time position requiring 37.5 hours per week, Monday through Friday. Candidates must be eligible to work full-time for the entire duration of the program.

This position is responsible for supporting the Business and Data Platforms team in Data Engineering tasks. The student will assist in developing datasets, models, and reports which are used to understand our business and meet strategic objectives. This position provides a great opportunity for a university student to gain practical experience in the fields of AI and Data Engineering/Development.

The Business and Data Platform's mandate includes the following themes:

- Creating reusable capabilities across IGM
- Defining strategy & technology/solution roadmaps
- Prioritizing features & solutions by strategic value

Responsibilities:

- Designing and developing relevant datasets, reports and analysis for operational and strategic initiatives
- Leveraging AI to automate work and increase efficiencies in everything that you do
- Looking for ways to integrate AI within our established workflows
- Work with data from multiple sources and databases (manipulate data, prepare data for machine learning/AI)
- Analyze structured and unstructured data, organize findings and translate into actionable insights
- Learn various modelling approaches and understand how to evaluate best performance considering model metrics and appropriateness for business interpretation
- Collaborate closely with relevant teams to ensure models/solutions can be deployed
- Participate in the development, testing, implementation, documentation and continuous improvement of datasets and data models as a member of the Business and Data Platform Portfolios

Requirements:

- Currently enrolled in a post-secondary program in Data Science, Computer Science, Management Analytics, Statistics or a similar field
- A strong interest in learning about and using AI; experience with Google Gemini or MicroSoft Co-pilot is a plus
- Knowledge of SQL, Python, and Git
- Familiarity with Google Looker, Tableau, Power BI, and/or other BI and reporting tools is a plus
- Exposure to cloud technologies (e.g. Google Cloud) is beneficial
- Good critical thinking skills – conceptualizing, analyzing, synthesizing, and evaluating
- Willingness to learn how to develop code as part of a team, including clear documentation and code reviews

To apply, please include a resume and transcripts (full unofficial version) by September 20, 2026, at 11:59 pm CST.

The expected annual base salary range (prorated for the term) for this role is **\$44,000 - \$47,000**, which is determined based on year of study, IGM program, geographic location and candidate's skills, knowledge and experience. In addition to base salary, this role is eligible for paid time off.

IGM is a diverse workplace committed to doing business inclusively - this starts with having a representative workforce! We encourage applications from all qualified candidates that represent the diversity present across Canada – including racialized persons, women,

Indigenous persons, persons with disabilities, 2SLGBTQIA+ community, gender diverse and neurodiverse individuals, as well as all who may contribute to the further diversification of ideas.

IG is an accessible employer committed to providing a barrier- free recruitment experience. If you require an accommodation or this information in an alternate format at any stage of the recruitment process, please reach out to the Talent Acquisition team who will work with you to meet your needs.

How to Apply: Interested candidates are invited to submit their resume and a cover letter detailing their qualifications and experience to <https://www.ig.ca/en/careers>

Artificial Intelligence in Recruitment: As part of our Talent Acquisition process, we may use artificial intelligence and automated tools to support activities such as candidate sourcing, application review, and interview scheduling. These tools support the recruitment process; all hiring decisions are made by people.

We thank all applicants for their interest in IG Wealth Management; however, only those candidates selected for an interview will be contacted.
