Job Description

ADVANCE YOUR CAREER. ADVANCE THE WORLD.

At AMD, we believe technology has the power to solve the world's most important challenges. From advancing healthcare and scientific discovery to powering AI and the technologies people rely on every day, innovation at AMD is shaping the future.

Whether you're designing next-gen processors, enabling AI breakthroughs, or bringing leading edge products to market, every role at AMD contributes to something bigger — technology that moves the world forward. Join us and, together, we'll advance your career.

As an AMD intern, you'll be placed at the epicenter of the AI ecosystem, working alongside experts and industry pioneers. You'll do important work, learn new skills, expand your network, and gain real-world experience on projects that impact millions of end-users worldwide. Whether you're an undergrad or a PhD student, your contributions matter—and your experience here will be a launchpad for what comes next.

JOB DETAILS:

Location: Markham, Ontario, Canada

Onsite/Hybrid: This role requires the student to work full time 37.5 hrs a week, either in a hybrid or onsite work structure throughout the duration of the co-op/intern term.

Winter Duration:

- 4 Months: January 11, 2027 to April 23, 2027
- 8 Months: January 11, 2027 to August 20, 2027

Summer Duration:

- 4 Months: May 3, 2027 to August 20, 2027
- 8 Months: May 3, 2027 to December 10, 2027

Fall Duration:

- 4 Months: September 13, 2027 to December 10, 2027

WHAT YOU WILL BE DOING:

We are seeking highly motivated Software Engineering intern/co-op to join our team at AMD. In this role –

We will assign you responsibilities in which you will work closely with our software engineers to build and maintain our software applications

- We will provide training on the full software creation process, from design and built to testing and deployment
- We will encourage you to build scripts that automate some of our software development process
- We will help you learn debugging methodologies to investigate the root cause of software issues
- In certain projects we may have your involvement in crafting technical/functional documents and reports as needed

WHO WE ARE LOOKING FOR:

- You are currently enrolled in a Canada based University into a Bachelors degree program majoring in Computer Engineering, Electrical Engineering, Computer Science or related discipline
- If you have knowledge / experience with any of the following technical skills (or related areas) and are enthusiastic about this role, we strongly encourage you to apply –
 - Software engineering concepts, principles, and theories
 - C/C++ programming and Scripting language like Python, Windows PowerShell, Linux shell script, Perl, Java, Javascript, UML
 - Operating systems UNIX/Linux OS
 - Databases, MySQL, PostgreSQL, MongoDB
 - Cloud computing platforms, Azure
 - Web development frameworks, Django, Rails, Spring Boot
 - Mark up languages like HTML, XML, XSL
 - Defect tracking, testing, debugging
 - Git, Github, Perforce
 - Security technologies, OAuth, SSL, or TLS
 - PC / CPU architecture, Embedded systems, microcontrollers

Note: By submitting your application, you are indicating your interest in AMD intern positions. We are recruiting for multiple positions, and if your experience aligns with any of intern opportunities, a recruiter will contact you

Benefits offered are described: AMD benefits at a glance (<https://www.amd.com/en/corporate/careers/benefits.html>).

AMD does not accept unsolicited resumes from headhunters, recruitment agencies, or fee-based recruitment services. AMD and its subsidiaries are equal opportunity, inclusive employers and will consider all applicants without regard to age, ancestry, color, marital status, medical condition, mental or physical disability, national origin, race, religion, political and/or third-party affiliation, sex, pregnancy, sexual orientation, gender identity, military or veteran status, or any other characteristic protected by law. We encourage applications from all qualified candidates and will accommodate applicants' needs under the respective laws throughout all stages of the recruitment and selection process.

AMD may use Artificial Intelligence to help screen, assess or select applicants for this position. AMD's "Responsible AI Policy" is available here. (<https://www.amd.com/en/legal/responsible-ai-use-policy.html>)

This posting is for an existing vacancy.
