End Date: September 26, 2026 (15 days left to apply)

R155234

Our employees are at the heart of everything we do. Together, we help people, businesses, and society prosper in good times and be resilient in bad times.

Our employee promise represents Intact's commitment to you in exchange for living our Values, striving to do your best work, being open to change and investing in your career. In return, we promise to provide support, opportunities and performance-led financial rewards at a workplace where you can shape the future, win as a team and grow with us.

Salary for the candidate will be determined taking into consideration a number of factors including: experience, skills, qualifications, anticipated contribution to role, internal equity, etc. The salary range presented below is based on a 35-hour workweek and would represent a majority of different candidate profiles. However, we encourage candidates who may fall outside of this range to apply as well.

Salary range (but not limited to):

66,500 - 83,100

About the role

Launching your tech career at Intact means joining a diverse team of more than 3,000 Digital, Data and Tech experts working at the intersection of what exists and what's possible. Here, you'll be supported by forward-thinking leaders who celebrate shared success, and you'll help push the industry forward with digital solutions that go beyond insurance to offer everyday value to millions of people. You'll grow personally and professionally

AI Developer – 4-Month Internship/Co-op (Winter 2027)

You applied for this job on September 9, 2026.

our work with unit

tests.

- Turn complex data into insights: help analyze datasets and translate findings into clear recommendations for the team.
- Collaborate in an agile squad: participate in standups, brainstorm technical solutions, and use Confluence/Jira for collaboration.
- Ship with confidence: document how things work, support deployments, share updates/estimates, and help teammates with production handoffs.
- Stay current on new approaches or opportunities, and bring them to the solutions you design.
- Prepare technical documentation to deploy and support completed systems.
- Provide estimates and status reports as needed.

What you bring to the table:

- Currently pursuing a bachelor's or master's degree in a field related to artificial intelligence, software engineering, computer sciences, or any other related field.
- Available to work with us full-time, 35 hours per week, for the Winter 2027 Term in hybrid mode (January to April).
- Must be an active student during your internship and/or returning to school in next Summer or Fall 2027 Term following your internship.
- No Canadian work experience required, but must be eligible to work in Canada.
- Required technical skills: Object Oriented Programming (OOP), Python, CI/CD, knowledge of development design patterns, AWS, Gen AI, and Agentic AI.

Your career starts here. Apply today!

We can't wait to learn more about you. When you complete your application, remember to include your resume and University/College transcript. We hire co-ops every semester (Winter, Summer and Fall)!

We're accepting applications now through September 25, 2026.

Il s'agit d'un nouveau rôle au sein de notre équipe en pleine croissance | This role is a new member of our growing team.

We are an equal opportunity employer

At Intact, our Value of respect is founded on seeing diversity as a strength. We strive to create an accessible workplace where employees feel valued, included and encouraged to share their unique perspectives.

We encourage applications from individuals who are members of equity-deserving groups, including but not limited to women, Indigenous peoples, persons with disabilities, Black people, and members of the 2SLGBTQI+ community.

As part of Intact's commitment to reconciliation, we acknowledge that we work, meet and travel across the land currently called Canada, originally inhabited by First Nations, Metis and Inuit people. This history extends
