MCP Applications Co-op UI or BE Co-op (Fall 2026, 8+ months)

[Apply](#) Ottawa Full time Posted Today R030895

As the global leader in high-speed connectivity, Ciena is committed to a people-first approach. Our teams enjoy a culture focused on prioritizing a flexible work environment that empowers individual growth, well-being, and belonging. We're a technology company that leads with our humanity—driving our business priorities alongside meaningful social, community, and societal impact.

How you will Contribute:

Ciena Corporation is a global networking leader holding #1 market position in our field. At our R&D headquarters in Ottawa we develop intelligent software for customers such as Facebook, Google and Apple as well as telecommunications giants such as AT&T, Verizon and Bell Canada.

We are looking for a passionate, enthusiastic co-ops to help us develop applications for our next generation Network Management solution. As a member of the MCP Applications team, you will be responsible for developing value-added software solutions that help differentiate Ciena from its competitors, using the latest technologies and techniques.

We are looking for students available for 8 months or more and who are interested in either developing front end Web UI solutions or developing backend features. The positions will be catered to students' interests and experience. You'll enjoy flexible working hours, a hybrid or remote workstyle, a MacBook Pro, a team environment and mentors who want to help you throughout the work term.

Responsibilities

MCP Applications Co-op UI or BE Co-op (Fall 2026, 8+ months)

[Apply](#)

- Experience building complex, scalable applications using leading edge technologies
- First-hand experience developing real customer software solutions
- Visibility of the full software development life cycle from requirements through to test
- A strong sense of responsibility for quality and completion of assigned tasks

Required Skills / Qualifications:

- **For UI position**, experience developing with JavaScript, HTML5, CSS
- **For Backend position**, experience developing with Java, Python, GO or similar
- Familiarity with Linux based development environments
- Self-starter, highly motivated with good interpersonal and communication skills

- Experience with REST API development
- Strong analytical and debugging skills
- Familiarity with Agile Scrum, Agile JIRA, Confluence

Pay Range: The hourly pay range for this position is \$25.00 - \$34.00

Pay ranges at Ciena are designed to accommodate variations in knowledge, skills, experience, market conditions, and locations, reflecting our diverse products, industries, and lines of business. Please note that the pay range information provided in this posting pertains specifically to the primary location, which is the top location listed in case multiple locations are available.

In addition to competitive compensation, Ciena offers students access to the Employee Assistance Program (EAP), company-paid holidays, paid sick leave, and vacation pay as required by applicable laws.

At Ciena, we are committed to building and fostering an environment in which our employees feel respected, valued, and heard. Ciena values the diversity of its workforce and respects its employees as individuals. We do not tolerate any form of discrimination.

Ciena is an Equal Opportunity Employer, including disability and protected veteran status.

If contacted in relation to a job opportunity, please advise Ciena of any accommodation measures you may require.
