About QuadReal Property Group

QuadReal Property Group is a global real estate investment, development and operating company headquartered in Vancouver, British Columbia. Its assets under management are \$98.5 billion. From its foundation in Canada as a full-service real estate operating company, QuadReal has expanded its capabilities globally for investments in equity and debt in both the public and private markets. QuadReal invests directly through operating platforms in which it holds an ownership interest and via programmatic partnerships.

QuadReal seeks to deliver strong investment returns while creating sustainable environments that bring value to the people and communities it serves. Now and for generations to come.

QuadReal: Excellence lives here.

www.quadreal.com

We are committed to providing our Co-ops/Interns with a student experience that provides a supportive and engaging learning environment while developing skills and business acumen.

final work term is a mandatory component for you to graduate, you are eligible to apply with the understanding that you will leave QuadReal at the end of your work term or have the possibility to be considered for full-time opportunities.

We are seeking an enthusiastic and driven Co-op/Intern to join our Integration Team in Toronto or Vancouver. Reporting to the Director of Integration, you will actively contribute to the day-to-day operations and play a vital role in our ongoing efforts to streamline and enhance our IT environment. This internship offers a unique opportunity to gain hands-on experience in integration, working alongside our talented team to understand integration requirements, optimize existing systems, implement new solutions, and improve our processes and tools, and participate in implementation and integration testing.

What We Offer:

- An organization and leaders that support your development through meaningful work experience
- A Student Mentorship Program designed to provide support throughout your experience
- Opportunities to build your industry knowledge through weekly Speaker Series & Fireside Chats
- Opportunities to participate in case competitions within QuadReal during your work term, fostering cross-functional collaboration with intern peers and enhancing exposure to real-world problem-solving.
- Giving back to the community with your peers and team members through volunteering events
- Opportunities to build long-lasting industry and professional relationships

What You Will Experience:

Integration Requirements:

- Collaborate with project stakeholders to gather and document integration requirements.
- Assist in translating business requirements into technical integration solutions.

Integration Support & Implementation:

Integration Developer, Winter 2027 - Toronto or Vancouver (Co-op/Internship) - 4 Months

[Continue Application](#)

DevOps Process Analysis and Improvement:

- Work with the DevOps team to analyze current integration processes.
- Identify areas for improvement and help implement process enhancements to streamline integration workflows.

AI & Intelligent Integration:

- Leverage Generative AI and AI Coding Assistants (such as GitHub Copilot, ChatGPT, Claude, and Anypoint AI Assist) to accelerate API development, DataWeave transformations, debugging, documentation, and test case generation..
- Explore AI-powered integration use cases, including intelligent workflow automation, AI Agents, Model Context Protocol (MCP), API orchestration, and enterprise knowledge integration.
- Assist in building secure AI-enabled integrations between enterprise applications and Large Language Models (LLMs) using modern AI integration patterns.

API and Network Security:

- Create and manage PGP and SSH keys to ensure encryption standards are met when integrating with other systems.
- Work closely with the infrastructure team to handle integration network requests, such as IP whitelisting and managing inbound and outbound connections from the cloud.
- Manage API security policies and rules for all integration APIs.

Documentation:

- Maintain detailed documentation of integration processes, configurations, and best practices.
- Assist in creating user guides and knowledge base articles for team reference.

Collaboration and Learning:

- Collaborate with cross-functional teams, including developers, architects, and business analysts.
- Continuously learn and stay updated on industry trends and best practices in integration technologies, particularly MuleSoft.

What You Will Bring:

Integration Developer, Winter 2027 - Toronto or Vancouver (Co-op/Internship) - 4 Months

MuleSoft, Azure Data Factory or TIBCO is valuable

- Interest in Artificial Intelligence, Large Language Models (LLMs), AI Agents, Prompt Engineering, AI-assisted software development, and AI-powered automation.
- Proficiency in working with databases (SQL and NoSQL) is necessary as data often needs to be retrieved, manipulated, and stored
- Familiarity with integration patterns like publish-subscribe, point-to-point, request-reply, and event-driven architectures
- Experience using AI coding assistants (e.g., GitHub Copilot, ChatGPT, Claude, Cursor, or similar tools) for software development is considered a strong asset.
- Effective communication is crucial to understand business requirements and collaborate with cross-functional teams
- Excellent analytical, problem-solving, and debugging skills.
- Curiosity, a growth mindset, and a passion for learning emerging technologies in enterprise integration and AI.
- Strong communication and collaboration skills with the ability to work effectively in cross-functional teams.
- The technology landscape is constantly evolving, so a willingness to learn and adapt to new tools and techniques is vital

This job posting is for a newly created role within our organization.

The expected hourly range for this role is \$23 to \$25.

#LI-DNP

The actual salary offered will take into consideration a wide array of factors including, but not limited to, the individual's skill, experience, education and training, the market compensation of the role, and the consideration to internal equity.

We value diverse experiences and perspectives. Even if your skills don't align 100% with the listed qualifications or salary range, we encourage you to apply – you may be a great fit for this role or others in our community. Applicants may also be considered for alternative positions
